PROJECT

E-commerce Website using Django
- Developed a fully functional e-commerce website using Django framework. Implemented features such as product listing, cart management, and secure checkout.

Weather App using Django
- Developed a feature-rich Django-based weather forecasting application that provides users with a wide range of weather information, including the current weather conditions, the next 3 days' weather forecast, and a historical record of the past 3 days' weather. Utilized the WeatherAPI.com API to source real-time weather data.

Built Django Authentication and Authorization System
- created a reliable Django user authentication and permission mechanism.

FileExplorer using React
- Explore and manage files with ease using the File Explorer project. This web application is built with React and designed for a user-friendly experience.

WordUtils using React
- React App. WordUtils- Word Counter, Character Counter, Lowercase to Uppercase, Uppercase to Lowercase, Remove Extra Spaces, Find and Replace, Highlight Text, Text-to-Speech, Emoji Support, Undo Text, Redo Text, Copy Text.
